**Superintendent  
of Public Works**

Daren A. Smith

## Attention Village of Delevan Water Consumers

Due to the Village of Delevan encountering problems with their radio read system that is used to read the water meters, some consumers' water meters will have to be read manually. If your water meter is in the basement of your dwelling, the Supt. of Public Works will have to have access to your meter. In the event that you are not at home when the Superintendent attempts to read your meter, you will be left a postcard to mail in with the reading or can be left in the Village of Delevan's drop box located at 85 S. Main St. If you need assistance in reading your meter, please contact the Superintendent at 716 492-0281 or the Village Clerk at 716 492-1424. We appreciate your cooperation and understanding as we work through this situation. The regular March 1st water bill we be delayed due to this issue.
